

ARTURO MISTRAL

THE RESIN FLOOR WITH A
CONCRETE APPEARANCE

UZIN UTZ®

ABOUT ARTURO MISTRAL

Unique properties

During the application process, two colours are mixed, creating a mottled effect similar to concrete. By using recycled and organic materials instead of fossil-based raw materials, Arturo Mistral creates a natural, concrete appearance that fits perfectly in homes, offices, and shops.

Arturo Mistral not only provides stunning aesthetics but is also very easy to maintain. Thanks to its seamless properties, the floor is easy to clean, contributing to long-lasting beauty and functionality.

With a collection of sixteen colours, Arturo Mistral offers a natural, robust appearance that suits all modern and sustainable interiors. Arturo Mistral is particularly suitable for floors that must withstand light to medium loads, making it an ideal choice for both residential and commercial applications. Choose Arturo Mistral for a quality, durable finish and a beautiful appearance.

THE MASTERPIECE OF SUSTAINABILITY AND DESIGN

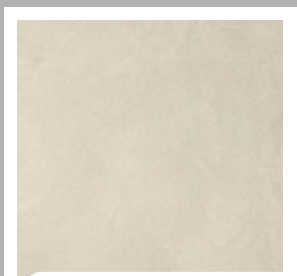

Enter the world of Arturo Mistral, where sustainability and aesthetics go hand in hand. Arturo Mistral is the innovative polyurethane resin floor with a rugged, concrete appearance thanks to the use of sustainable materials. DID YOU KNOW!
The material we use to make
our samples is completely
recyclable!

Arturo Mistral is available in sixteen colours.
We have done our utmost to represent the colours and nuances of the floor as accurately as possible. We have photographed actual samples to create a realistic image. Slight colour variations are possible, so the actual colours may differ slightly from the photo.
